FOR PEOPLE WHO RUN EVENTS

Your event deserves more than a Google Form.

4 things the best-run events get right. Save this before you plan your next one.

Registration

Check-in

Money

After

SOUND FAMILIAR?

Most events still run on six tools.

A Google Form

An Excel sheet

UPI screenshots

Five WhatsApp groups

A printed list at the gate

Canva certificates, one by one

And one very tired team at 2 AM, matching payments to names.

01 · REGISTRATION

Ask less. Convert more.

a **Every extra question costs you signups.** Ask only what you will actually use.

b **Free RSVP for reach, paid tickets for commitment.** Even ₹49 cuts no-shows.

c **Sell group tickets.** One person registering brings four friends with them.

d **Open a waitlist when you sell out.** Demand you can still convert.

On Unifesto: ticket types, coupons, group seats and waitlists, built in.

02 · CHECK-IN

The door is where events are won or lost.

Main gate · live

Day 1

412 / 500 checked in

Gate	Lunch	Kits
412	288	341

A QR pass on every phone. Scan at the gate, meals and kit desk. A live count instead of a guess.

03 · MONEY

Know where every rupee went.

Collected	₹1,84,500
Fees	– ₹4,428
Refunded	– ₹2,400
Net to your bank	**₹1,77,672**

Razorpay checkout, payouts to your account, refunds that need approval before money moves. No screenshots to match.

04 · AFTER THE EVENT

The event isn't over when the lights go off.

a **Certificates in one batch,** from your own template, verifiable online.

b **Sponsors get their leads** from booth scans, so they come back next year.

c **A PDF report writes itself:** registrations, attendance, money.

d **Your Space keeps it all,** even when next year's team takes over.

GOING, NOT ORGANISING?

Never miss what's on near you.

- → Fests, meetups, hackathons and workshops in one feed
- → Register in a few taps
- → Your pass, always on your phone
- → Every certificate in one place
