unifesto

UNIFESTO HORIZON · BRAND GUIDELINES · OCTOBER 2026

Run the whole event.
Not just the ticket page.

Boilerplate (use as written)

Unifesto is an event platform for clubs, communities, institutions and startups in India. Organisers run ticketing, QR check-in, payouts, certificates, sponsors and hackathon judging from one Space. Attendees discover events, register and carry their pass in the Unifesto app.

Tagline

Optimize.
Organize.
Elevate.

Name

Always **Unifesto**: one word, capital U in text. Never UniFesto, UNIFESTO or Uni Festo. The lowercase form belongs to the logo only.

02 · THE THEME

Unifesto Horizon

Our visual theme on the website, Space, Apex and the app: night first, thin lines, and colour only where the work is. Locked on 29 October 2026. Changing a colour, line, light, glass effect or typeface needs a new edition of these guidelines.

Night first. Black ground and silver type. By day the same roles sit on paper #F2F2F5 with white sections and cards, and light turns pale blue.

Thin lines only. Stars, two white orbit hairlines, edge rules and the horizon, with a soft blue glow rising off it. Never planets, bars or coloured lines.

Colour lives in cards. Mint, sky and ivory sit inside cards, on the work they describe. Navigation, links and buttons stay monochrome.

Colour blends. Inside a card, an accent's soft shapes (orbs, a horizon, a beam, a fan) melt into a deep base. No lines, no hard edges.

Grain on everything. A fine film grain over every surface, heavier inside shade cards.

Frosted glass floats. Panels over a shade are frosted, untinted glass. Statuses are plain text, never pills.

The wordmark

Silver on dark. The primary logo.

Ink (#111113) on light.

Clear space. Keep empty space around the wordmark at least the height of its "u" on every side. Nothing else enters that zone.

Minimum size. 96 px wide on screen, 25 mm in print. Below that, use the symbol.

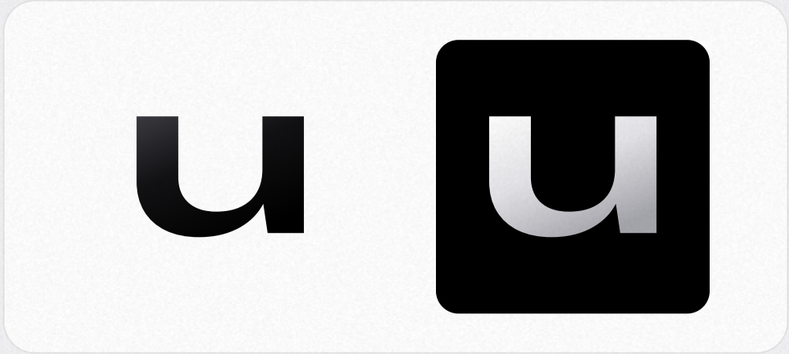

The u

App icon. Silver u centred on black, with starlight and the Horizon-blue glow. By day, an ink u on paper; iOS follows the system appearance.

Favicon and small sizes: tile and u only, no stars or horizon.

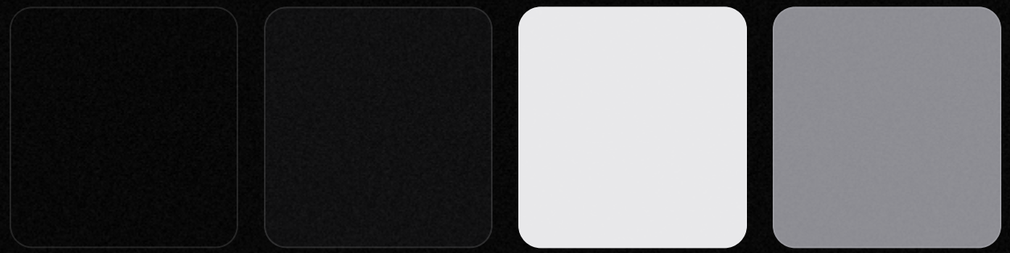

The symbol alone: avatars, stickers, merchandise, and anywhere the wordmark would fall below its minimum size.

The u is the first letter of the wordmark, unchanged. Use it when the brand is already named nearby (an app grid, a profile photo), and the full wordmark everywhere else.

Ground and chrome

The frame of every screen is monochrome. Night is the default; day keeps the same roles on paper.

By night

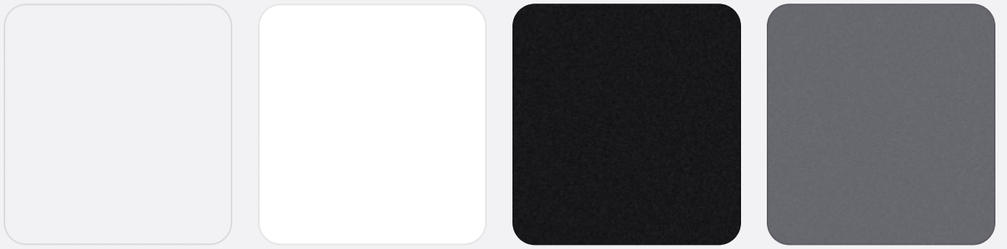

Night
#000000 · page

Night 2
#0A0A0B · cards

Silver
#E8E8EA · type, buttons

Muted
#8A8A90 · secondary

By day

Paper
#F2F2F5 · page

White
#FFFFFF · cards

Ink
#111113 · type, buttons

Muted
#63636A · secondary

05 · COLOUR

Colour lives in cards

Each accent belongs to one kind of work and appears only inside cards: text, figures, progress, dots. Never on card borders, navigation, links or buttons. By day the accent darkens to its text shade.

Live check-in

387 checked in

Mint · live and check-in

#90E4C1 night · #15745A day

Regular · ₹349

212 left

Sky · tickets and events

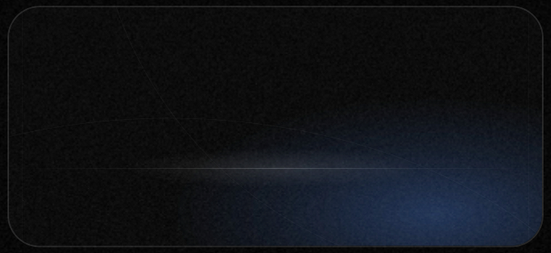

#90D5FF night · #0369A1 day

Net payout

₹1,38,413

Ivory · money and payouts

#F7F0E0 night · #7A5A1E day

Horizon blue · the glow

#0062FF, lightened: #4D8DFF night · #8FB4FF day

Crimson · errors

#EC2F58 night · #BE123C day

Amber · warnings

#F59E0B night · #92400E day

Signals, not brand colours: only for errors and warnings. Crimson lifts by night so it still reads on black (5.1:1).

Two typefaces

Headlines · DM Sans 500 (Google Fonts)

Aa Bb 123

One event, two sides of the door.

Headlines only. One weight, never bold or condensed. Tracking tightens as size grows: 0.9 px – 0.062 em.

The wordmark is drawn artwork, not typed text. Always use the supplied files.

Text · Hanken Grotesk (Google Fonts)

Aa Bb 123

Find events near you, register in a few taps, and walk in with the pass on your phone.

Body, UI and captions. Light 300 to Semibold 600.

07 · LINES & LIGHT

The sky behind every hero

Stars. Two layers of faint 1 px points, by night only.

Orbits. Two 1 px hairlines: a large circle from the top right, a wide ellipse rising from the bottom left. They drift too slowly to notice.

Horizon blue. A wide, flat glow rising off the horizon: from the bottom-right corner behind the hero's product, and along the foot of the page. #4D8DFF by night, a pale #8FB4FF by day. Never on the orbits.

Horizon. One line of light with a soft bloom, white by night and pale blue by day. It anchors heroes and closes pages.

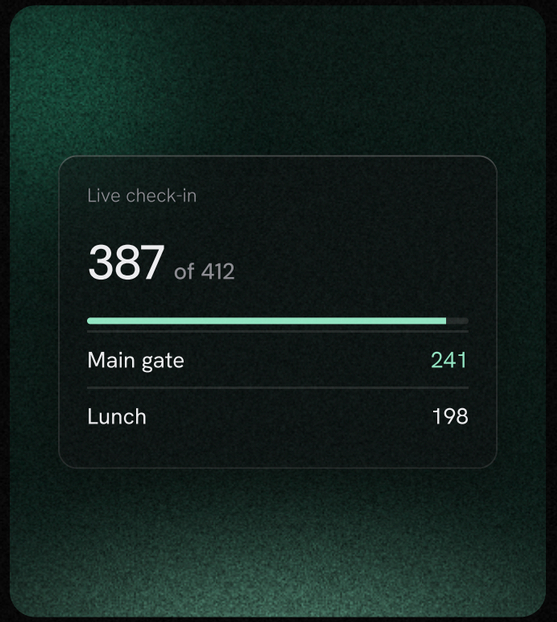

Edge rules and grain. Faint vertical rules near each side; film grain at 12% by night, 9% by day.

Product on a shade

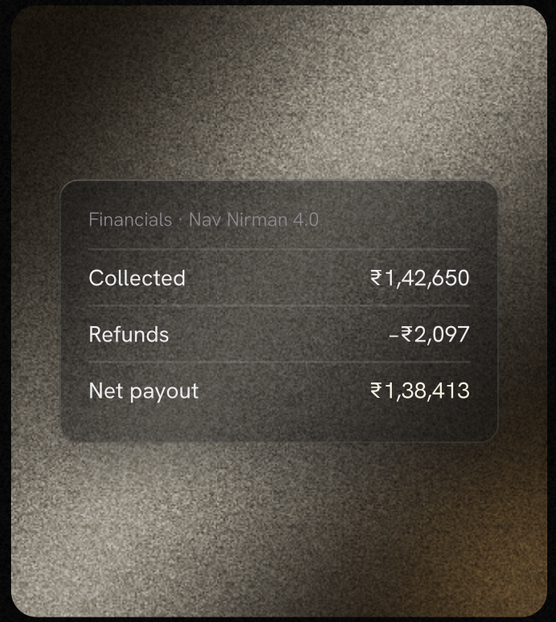

Soft shapes in one accent, fully blended into a deep base: two orbs for sky, a horizon rising from below for mint, a diagonal beam for ivory, a fan of light for blue. Grain on top (128 px tile, overlay, 60%), and the product floats on it as frosted glass.

Sky · tickets

Mint · the door

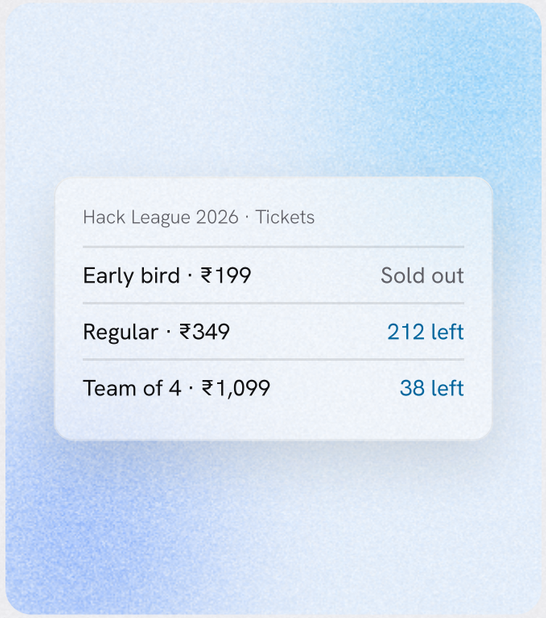

Ivory · money

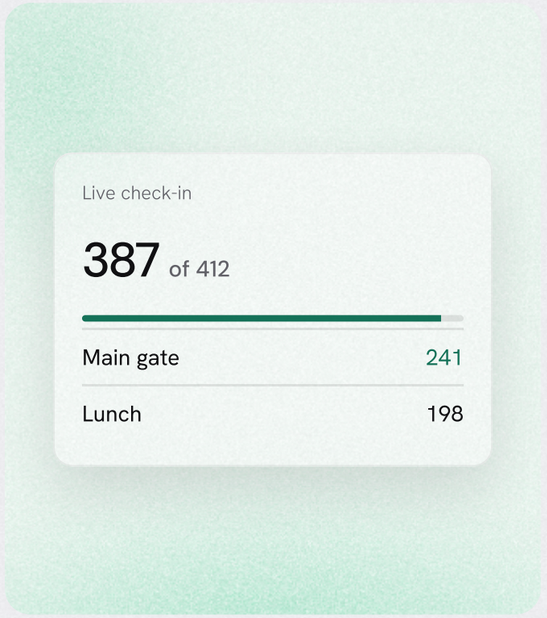

Horizon blue · hackathons

By day

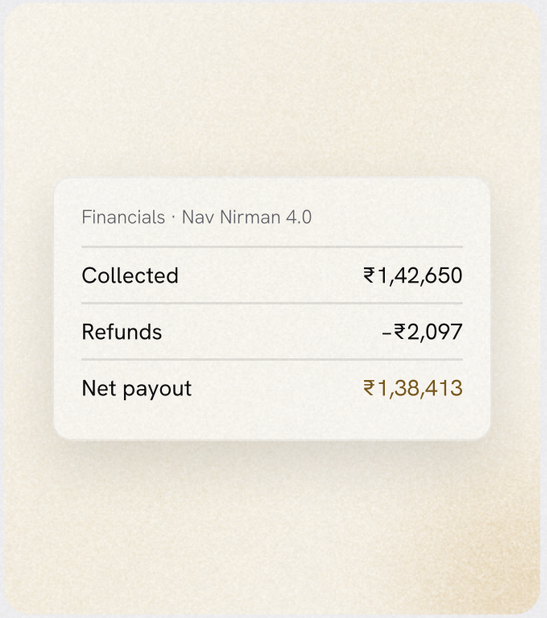

The same shapes in pastel on a near-white base. Glass turns to white frost and accents switch to their day text shades.

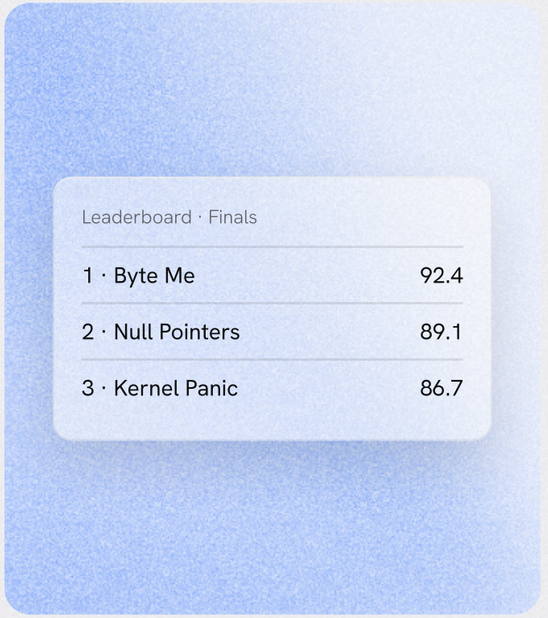

Sky · tickets

Mint · the door

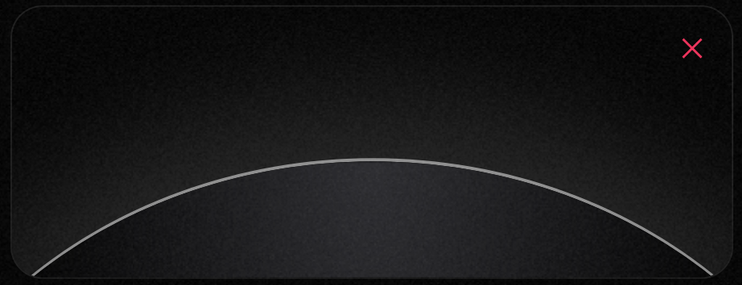

Ivory · money

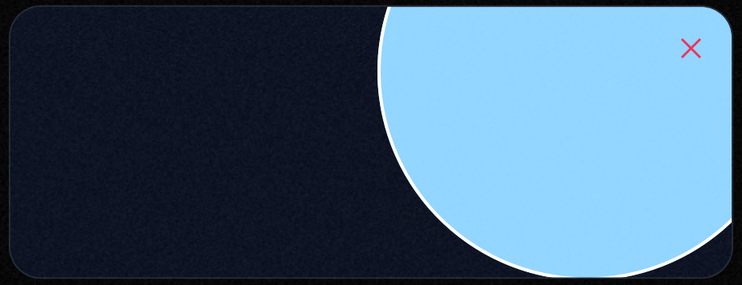

Horizon blue · hackathons

09 · PLEASE DON'T

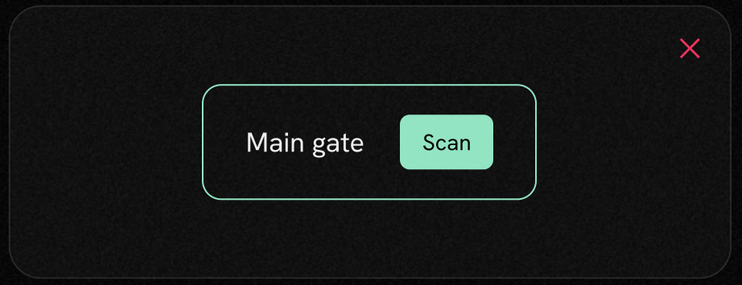

Keep Horizon as it is

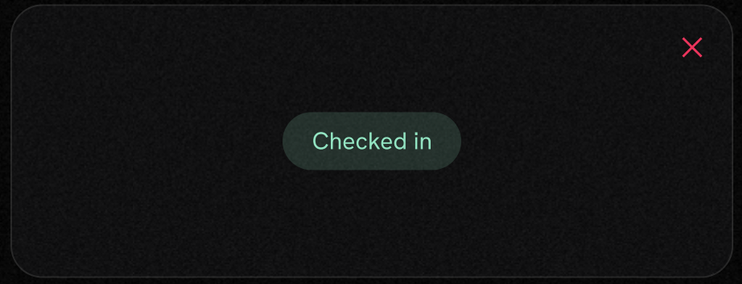

Planets, crescents or glowing bars on the backdrop

Hard edges or lines in a card's colour. It always blends out.

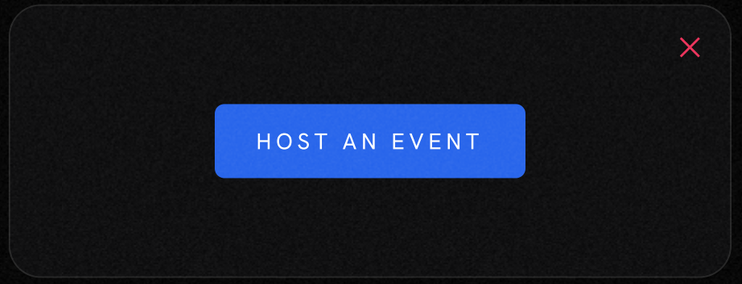

Accents on borders, buttons or links

Pill badges. Write the status as plain text: ✓ Checked in.

Tinted, dark or glowing glass. Glass is frosted, untinted.

A brand colour in buttons or navigation (including the old blue)

09 · PLEASE DON'T

Keep the mark as it is

Stretch or squash it

Recolour it (including the old blue)

Rotate or tilt it

Put silver on a light background

Add glows, shadows or outlines

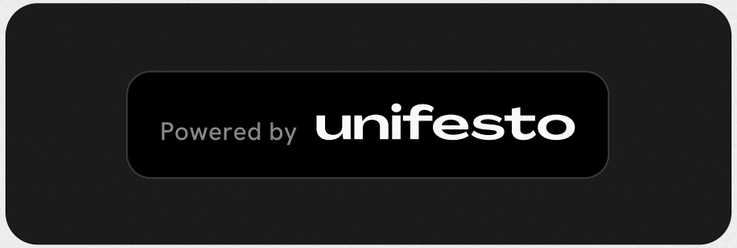

Retype it in another font

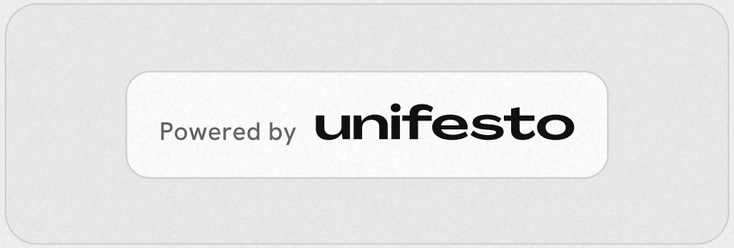

10 · POWERED BY

For events run on Unifesto

Organisers can show the badge on event pages, posters, standees and sponsor walls. Use the boxed badge on photos and busy backgrounds, and the one-colour version on a plain colour.

Dark badge

Light badge

White, on dark colours

Black, on light colours

Size. At least 120 px wide on screen and 30 mm in print. Stacked versions suit square spaces.

Place. Corners or the footer, with clear space of half the badge height. Never over faces or text.

Link. Online, link the badge to unifesto.app. The ready-made snippet is on unifesto.app/press.

11 · PRODUCTS

Sprint and Orbit

Each product carries the wordmark with its name beside it. The lockup follows the logo's rules: silver on dark, ink on light, same clear space.

Unifesto Sprint · hackathons

Unifesto Orbit · campus programme

Name. In text, always the full name: Unifesto Sprint, never Sprint alone on first mention.

Build. Use the supplied lockup. Don't type a product name next to the wordmark yourself.

Size. At least 160 px wide on screen, 40 mm in print, so the name stays readable.
