How to sell event tickets online

Tickets that sell themselves.

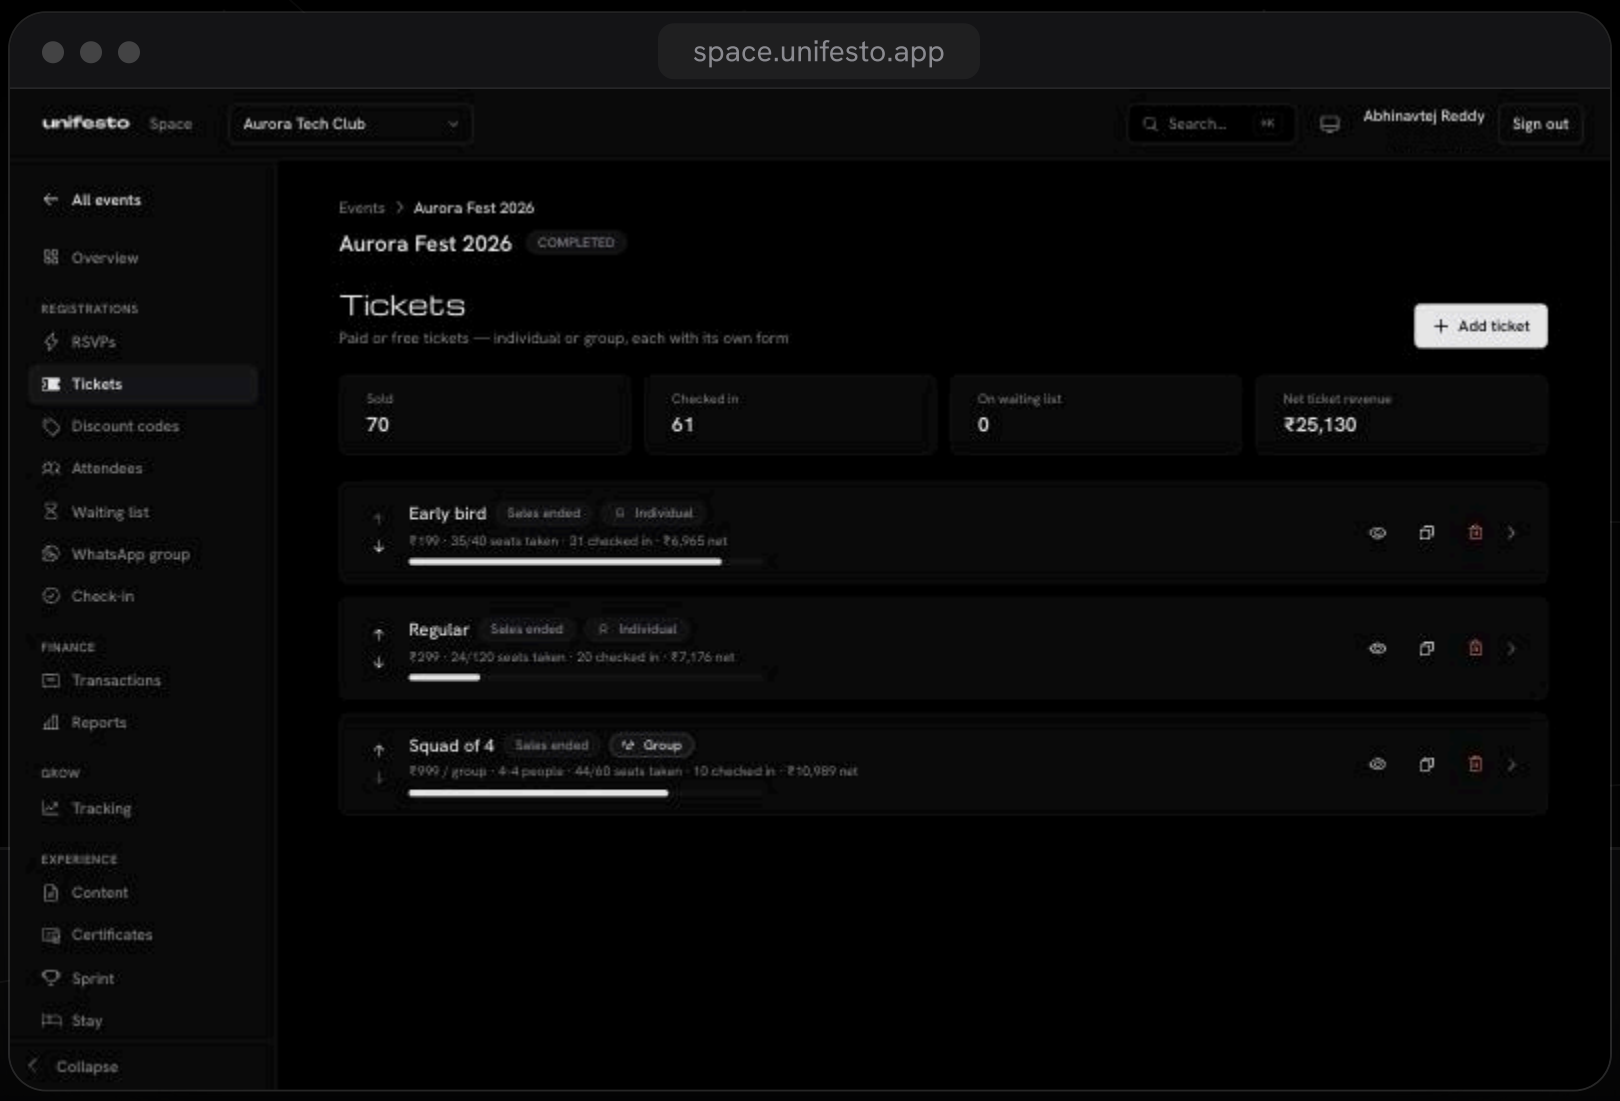

Ticket types, group tickets, questions and coupons for your next fest.

01

Plan three tickets

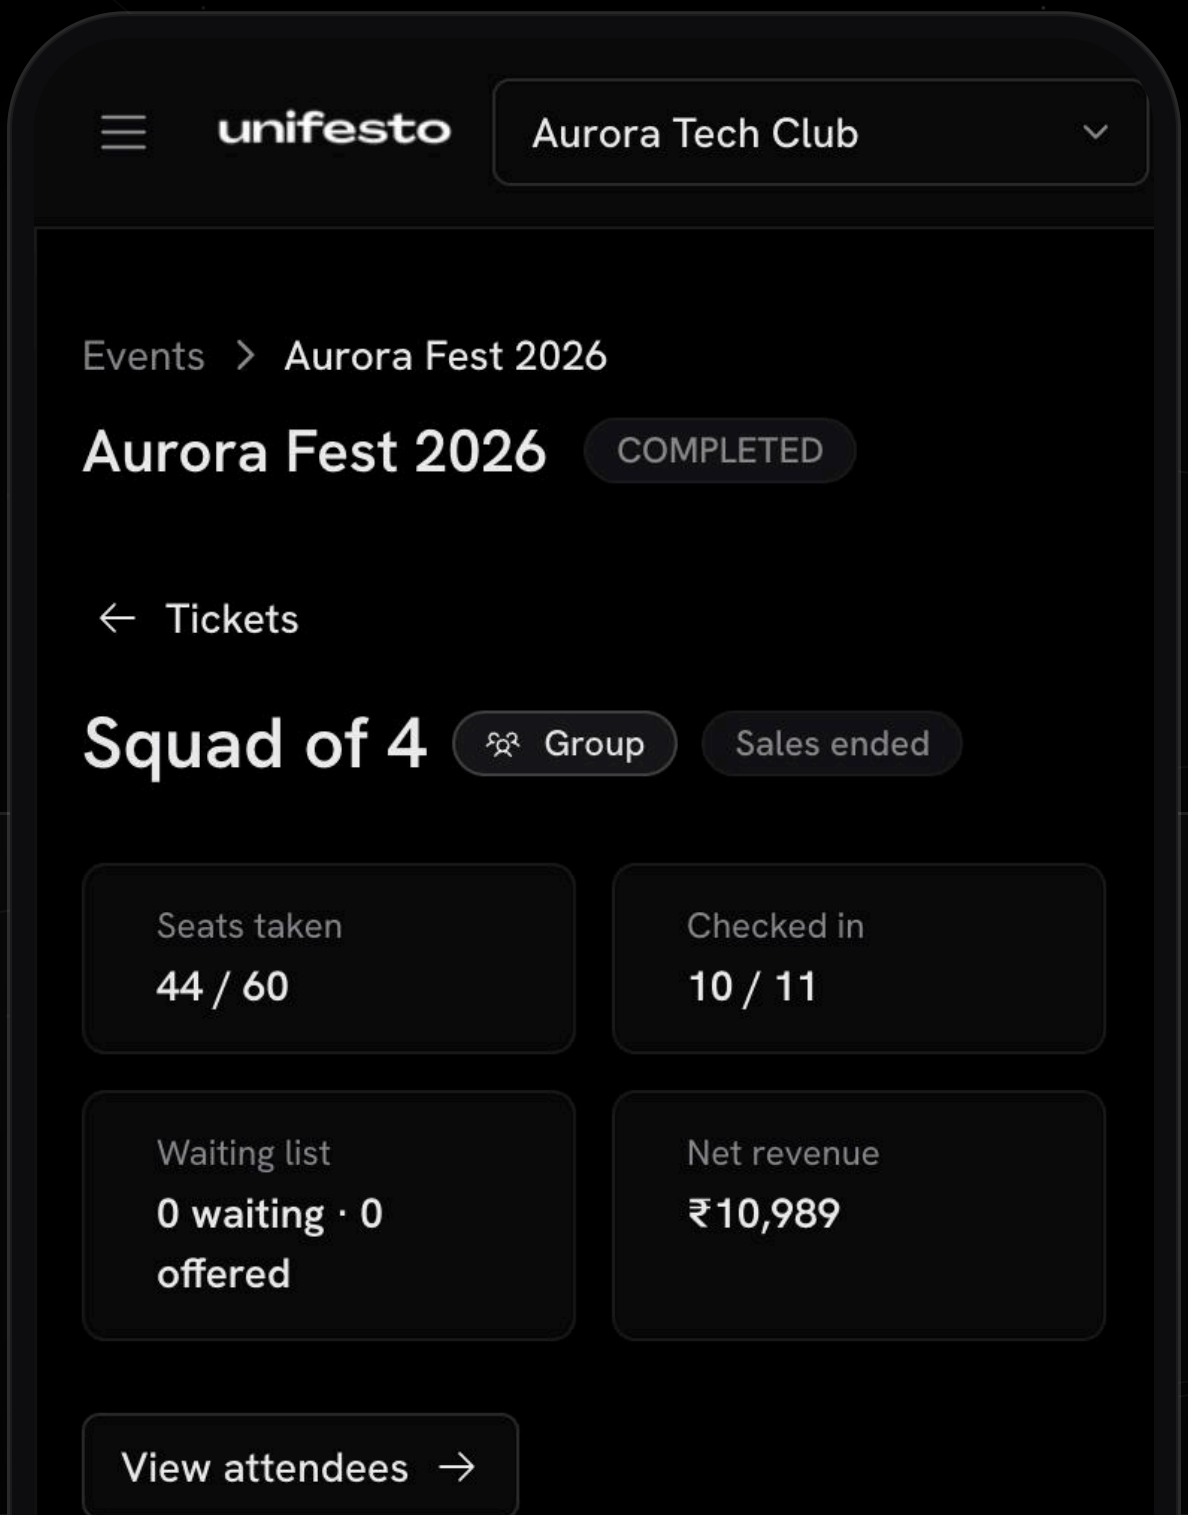

Early bird with an end date, Regular, and a team ticket. The early bird stops selling on its own.

02

Sell teams one ticket

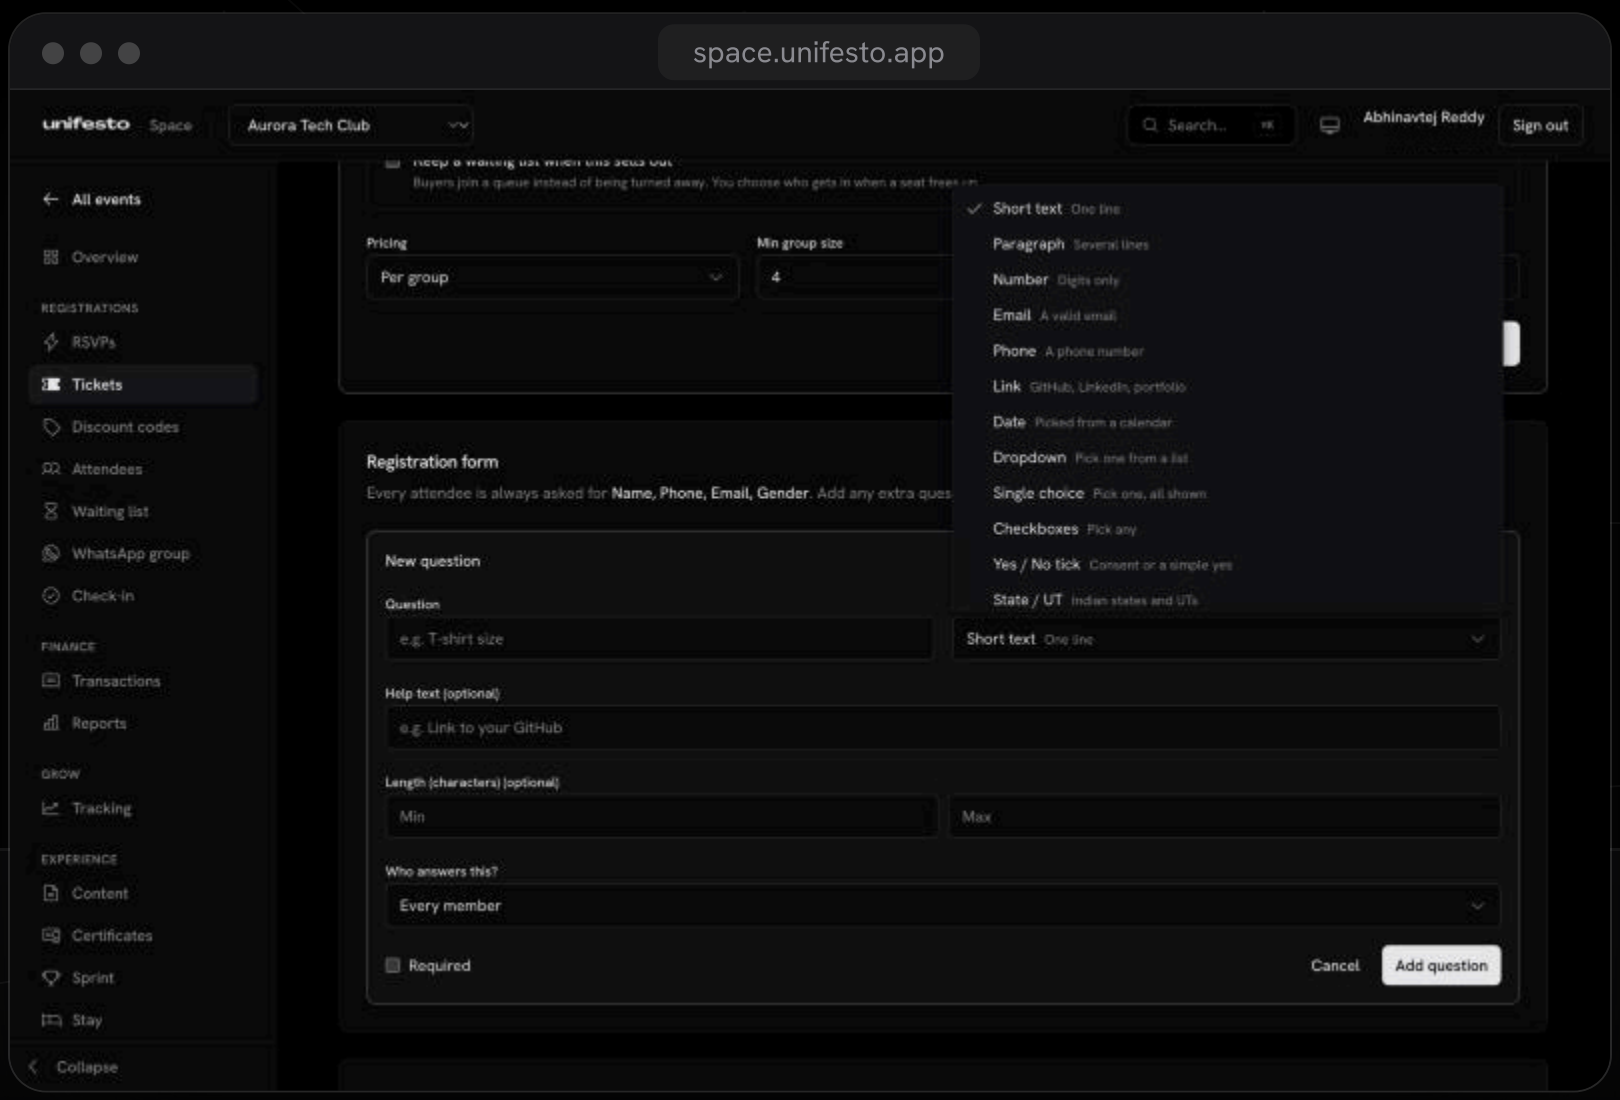

The lead pays once. Each member claims a seat and gets their own pass.

03

Ask only what you'll use

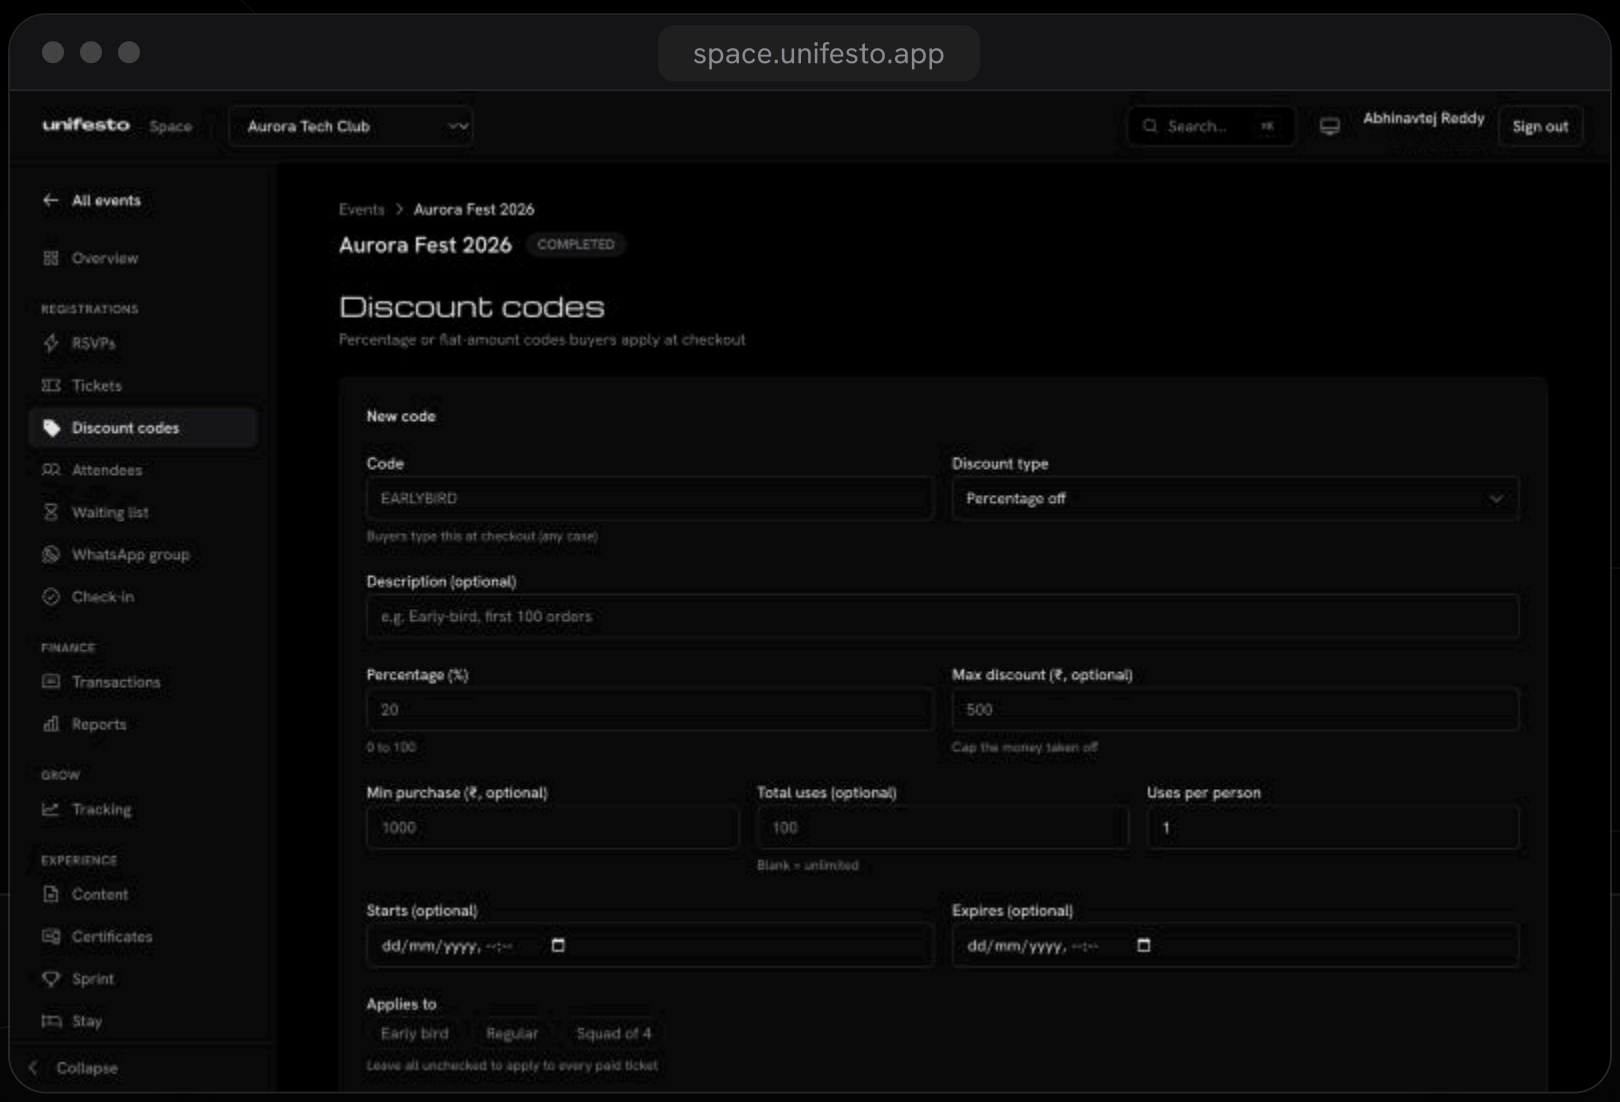

14 question types. Choose if the lead answers or every member does.

04

Give your club a code

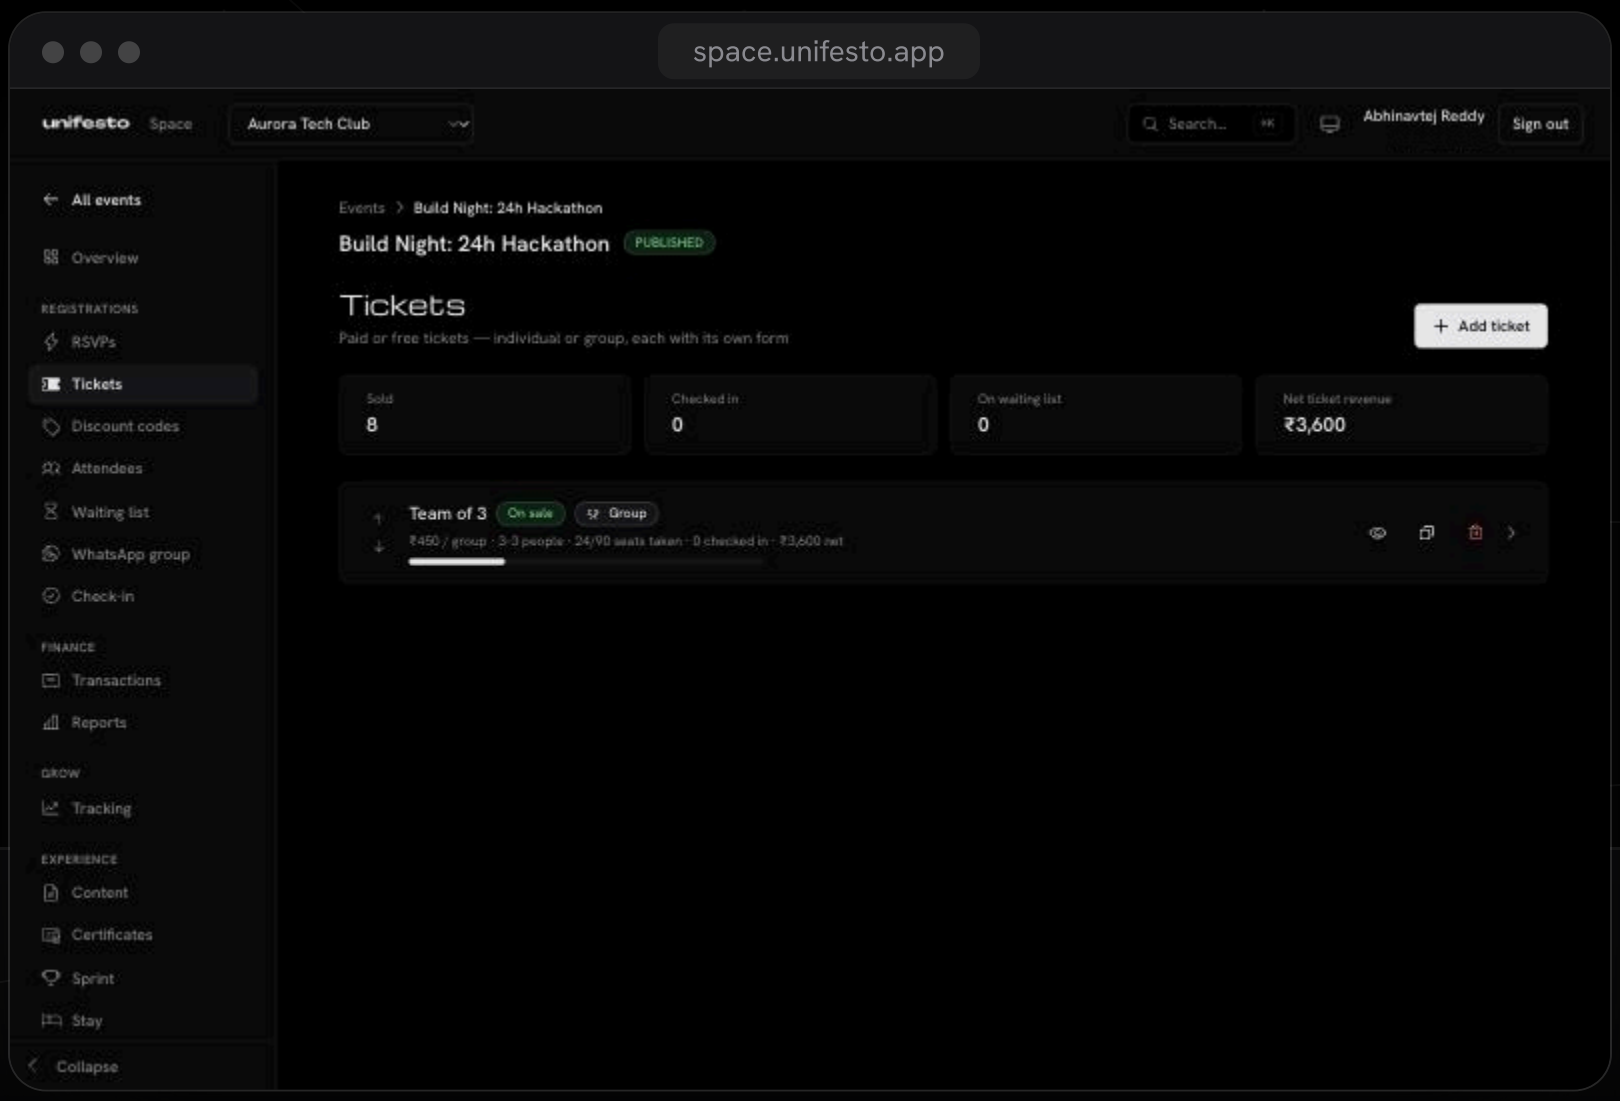

Percent or flat off, with a limit. When it's used up, it stops.

05

Share one tracked link

Attendees register and pay in the free Unifesto app and get a QR pass. You see which link sold.

Open sales this week.

Free RSVP events cost nothing. Full video on our YouTube.
